Message of sympathy and condolence to affected families following the violent floods that lives our country Morocco

Toronto-November 30th 2014 — The Moroccan Association of Toronto and the Moroccan Community of Ontario present their feelings of profound sympathies and condolences to the Moroccan families affected and the Moroccan Government following the human and material losses that occurred in Morocco because of torrential rains which have brought significant flooding and landslides especially in the southern regions of Morocco.

We are turning our thoughts and our prayers to the victims and their families in these very difficult times.

THE AMDT is currently exploring the possibilities to help the victims and we are open to your suggestions and proposals.

We implore Allah to surround the victims of His holy mercy, to host the disappeared in Paradise and to inspire comfort and consolation to their families and to give a prompt establishment to the wounded.
